本校布告

教務處布告

近年以來，國事艱難，教育危殆，而本校教課情形與一般秩序，仍獲繼續改善，諸生之成績仍獲繼續增進，本校教學同人居嘗引以自慰。本學年開學之始，適值國內戰爭爆發之時，北京國立學校，一時幾欲宣告停閉。本校教學同人不避艱窘，力主開課，學校於以維持，諸生過去一年間之光陰亦幸未虛耗。適值學年將終之際。滬事又起。本校教務會議，以距例應停課之期不過數日，而斯事又已激起一種普遍的國民運動，乃任令教課即時停止。仍冀一兩星期內，滬事風潮稍有結束，本校一切考試仍得依預定時期舉行。詎迄今時閱數週，事變尚未收束，抑且不卜收束究在何時。用是教務會議不得不對于學年考試事宜，及今議定適當之通融辦法。一方面務使諸生不致感受意外的不便，一方面亦須使本校教學同人數年來所慘澹經營之秩序，不致因此次事變而大遭毀破。諸生愛國不忘愛校，必能共體此意。茲將教務會議關于本年度本預科學年考試所議定之辦法列舉如左：

(甲)預科各年級及本科一二三年級之攷試

二，畢業論文在覘各生之一般學力，其論題由各系教授會決定，其論文亦由各系教授會評定。

三，評定論文時，當參考各生一二三年級時之成績與其本年上課時間。評定及格者准其畢業。

四，各系四年級生須一律依次列日期，向註册部領取論題，試卷，及交卷：

(1)領題及領卷日期　自六月三十日起至七月五日止(每日上午九時至十一時)

(2)交卷截止期　七月十日

領題領卷及交卷時俱須繳驗入學證。

試卷篇幅不敷用時，得由各生自以紙頁接補。

北大救職員滬案後援會專紀

致美法意比各國國民及議會電

To the People and Parliaments of the United Sattes, France, Italy and Belgium:

Being desirous of maintaining and strengthening the friendly relations which have always existed between the Chinese people and the people of the United States, France Italy and Belgium, we, professors of the National University of Peking, on behalf of the university and intellectual people in China, wish to make it known clearly and definitely that the present nation-wide expression of popular feeling against the atrocities which were recently committed on unarmed Chinese citizens on successive days in the British settle ments of Shanghai and Hankow is directed solely against the British and the Japanese who were responsible for the blood-shed and massacre.

The incidents arose from the murderous conduct first of theJapanese industrialists and then of the Brit ish police and consular authorities in the aforesaid settlements and the present antagonism against these acts of insult and brutality, which it is impossible to justify upon any human ground, is indeed the least that must be done to redeem the sense of proper and decorous international relationship which has been so much impaired. we desire therefore to impress upon the people of the United States, France, Italy and Belgium, with whom we have always, had the most friendly intercourse, that we are very solicitous of strengthening these friedly relation and thatthe boycott, which the whole Chinese nation is now having recourse to as a peaceful economic weapon in this war against inhumanity is restricted entirely to Japanese and British goods, and is thus by no means calculated to affect, except in a beneficial way, the commercial relations between ourselves and you. And further it is our hope that although the British and the Japanese have taken the present opportunity to arouse feelings of animosity between ourselves and the people of other nations, you will be assured of the amicable co-operation which the Chinese people are always willing to show to you and to all others who are disposod towards friendly intercourse based upon justice and equality.

It has come to us as a great surprise therefore that in a recent note which the British and Japanese diplomatic representatives in Peking addressed to our Minister of Foreign Affairs, we findthat instead of doing everything in their power to help control the spread of the explorable incidents for which, we repeat, the British and the Japanese authorities alone ar responsible, your diplomatic representatives have joined these authorities in laying the blame upon the incompetence of the local Chinese officials, we cannot help wondering that your representatives could have been

insinuated to take such a measure, as it is to itself not only an unfriendly act but is also liable to make the present situation grow from bad to worse. It is quite evident that the policy of the British and Japanese authorities is to make the present case not simply an issue between China and their respective governments but to make it also an issue between China and yourselves. They are most anxious to receive your help because it will mean so much for their success, and it is very much to be regretted therefore that your diplomatic representatives should have given support to the sinister and malicious motives behind the British and Japanese policy in the tense situation when, on the contrary, they could have very easily used their good offices to offer a satisfactory solution according to the dictates of justice and fair-play, and thereby gain the admiration and respect not only of the Chinese people but also of all fair-minded people throughout the world.

That not a single one of your nationals was ever wounded or killed or in the slightest way molested during the whole course of events even under circumstances when it is almost impossible for mobs to discriminate you from the British on account of similar physical features is a clear indication that the present popular movement must in no way be construed as being against foreigners in general. But we reiterate it is to the advantage of British and Japanese diplomatic negotiations to encourage general anti-foreign feeling in the movement, and the recent note jointly addressed by your representatives to the Chinese Foreign Office is precisely the support that both the British and the Japanese need and is absolutely in accordance with the spirit of the policy which they desire to carry out. It very much depends upon you, therefore, either to make or to mar the present situation and although, as a body of educational people, shall exert our utmost to guide the actions of our people so that they shall be directed only against the British and the Japanese, we must disclaim any responsibility when the movement begins to assume a general anti-foreign nature which the British and Japanese so much desire and will try to bring about when the other friendly powers do not contribute their share to hold these imperialistic activities in check. We wish to renew, however, our hope for genuine co-operation so that the sense of justice and humanity, though at present very much jeopardised by the arbitrary conduct of the British and the Japanese, may yet prevail. We are confident, that, in the light of the friendly feelings which have always animated our intercourse, our hope will be realized.

旅行報告

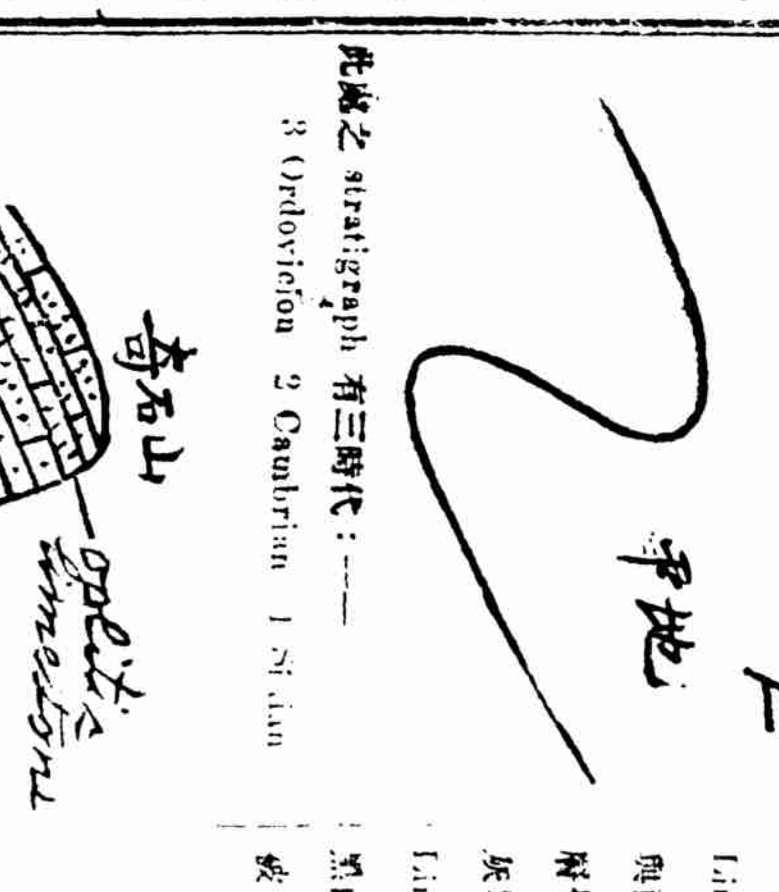
地質系三年級山西旅行報告

丁道衡

本系每屆春季，系有地質旅行，一以地質之學，注重實地調查，平日所習，不過書中知識，於地形（tectonic）地史（stratigraphic）之情形，僅見諸成書，不如身歷目睹之親切有益；一以吾國各地地質時代（Time Eras and Time Periods），尚多未明瞭，藉此旅行之便，採取化石而鑑定之，並於地質上，又了解一處。今年本校因經費困難，長途旅行，有行罷之議，後經同學再三力爭，各教授多方設法，方克成行，乃由李四光教授等往山西指導，於四月二十一晚十一時三十五分，由京漢車出發，往返共歷十四日，所查凡四處：雙龍、井陘、陽泉、[illegible]，並將所得各地地層之構形，報告如下：

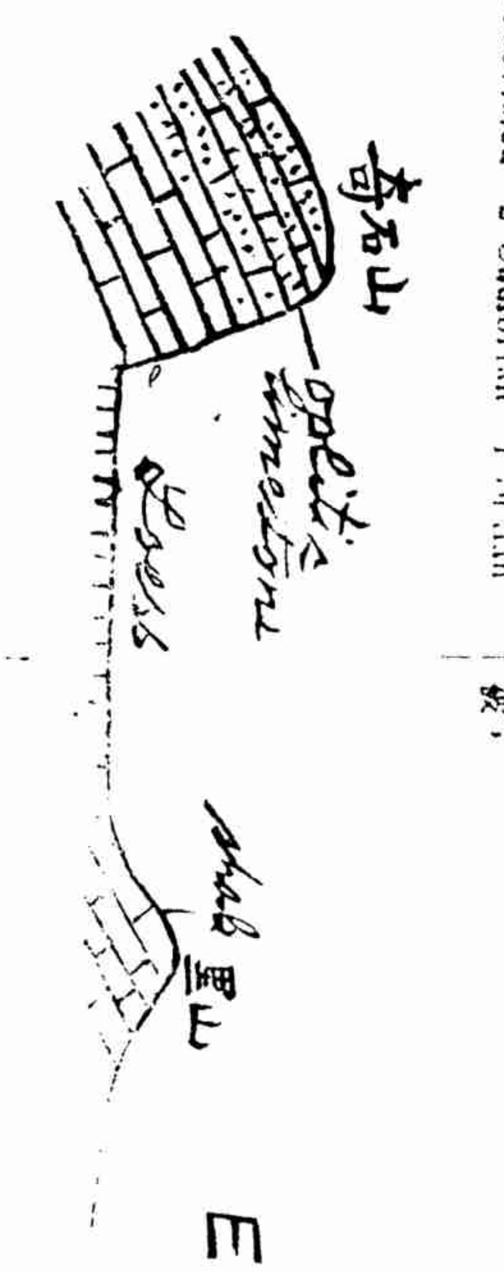
雙龍：其山脈為太行之一系，奇石出露其間，山

之東既爲平地，似受極大 distarbance 而成，就其地形觀之，極似 Fold 之結果，山與平原交界處形成一弧，見下圖



此地之 stratigraph 有三時代：——

3 Ordovicion 2 Cambrian 1 Sinian



此 loess 何以發生，有三種原因足以致之。

(一)Dip fault順dip之方向而奇石山方面下降；

(二)Soft material 受外緣變化，分解而成；

(三)Soft material 分裂，且發生若干小 fault 而成。

（未完）

其地層之 General Strike N.E., dip 10°—15° 奇石山下部爲 sinian 以採得 Trilobite, Hyolithes, Lophophyllum, Brachiopoda 上部爲 Oolitic limestone 所成亦有上列化石。其東爲黑山亦爲 Limestone 化石有 Collenia 深於地表者頗多，與南口所產者相同，其東北爲楊花山三時代之地層皆備，在下部含有 Trilobite，中部見有竹葉石灰岩（Wurm kalk）一種，但未見有 Oolitic Limestone.

黑山與奇石山之間爲極廣的平原皆爲 loess 所蓋蔽。
